

Medicare Revalidation Lookup Tool

Section 6401 (a) of the Affordable Care Act established a requirement for all enrolled providers/suppliers to revalidate their Medicare enrollment information under new enrollment screening criteria. CMS has completed its initial round of revalidations and will be resuming regular revalidation cycles in accordance with 42 CFR §424.515. In an effort to streamline the revalidation process and reduce provider/supplier burden, CMS has implemented several revalidation processing improvements one of which is established due dates by which you must revalidate.

This look-up tool is a searchable database that allows you to look up an Individual Provider or Organization and find their revalidation due date:

- by Last Name, First Name or Organization Name
- by NPI of an Individual Provider or Organization

Once the Provider's details are displayed on the screen, the Provider's name can be clicked to get a list of entities receiving reassignment from that provider if applicable.

Additionally, a search can be performed by the Entities Receiving Reassignment benefits:

- by Receiving Entity Last Name, First Name or Organization

Once the Receiving Entity's name is displayed it can be clicked to display the Provider(s) reassigning to that Entity.

When populating any field in the look-up tool, content must be entered exactly. Search terms will match only exact results. Partial search terms will not yield expanded search results.

A detailed explanation of how to use this search tool can be found here in the User Guide ([link to User Guide](#))
